

## **Fellowship Profile: Communications and Sustainability**

***Location: Rome or Remote from other European locations***

**Duration:** 1 Year (Fixed-term)

**Reporting to:** Brand and Communications Manager

### **About Angelini Ventures**

Angelini Ventures, the venture capital arm of Angelini Industries, is an early-stage investments firm focused on accelerating disruptive innovation in digital health and life sciences. We are passionate about supporting ambitious founders and helping them scale their businesses. Our goal is to provide "smart capital" that extends beyond financial investment to provide comprehensive ecosystem support.

### **About the Position**

We are seeking a highly motivated **Communications and Sustainability fellow** for a 1-year immersive journey. This role is a "ground-floor" opportunity to join a fast-paced, entrepreneurial team. The successful candidate will work at the intersection of strategic communications and **ESG (Environmental, Social, and Governance)**, helping to define how Angelini Ventures communicates its impact on the global healthcare landscape.

### **Overview**

The Communications and Sustainability Fellow will support the Brand and Communications Manager in building a cohesive global narrative. This involves translating complex investment and clinical successes into compelling stories of sustainability and social impact. As we bridge the gap between Asian and European markets, you will play a key role in ensuring our sustainability commitments are integrated into our brand identity and ecosystem support activities.

### **Key Responsibilities**

- **Strategic Content Creation:** Draft high-quality articles, press releases, and social media content that highlight our commitment to healthcare innovation and sustainability.

- **Stakeholder Engagement:** Support relationship management with key stakeholders, including incubators and accelerators, to foster a robust network focused on sustainable growth.
- **ESG Framework & Reporting:** Assist in tracking ESG metrics across our global portfolio and support the preparation of the annual Sustainability/Impact Report.
- **Market Intelligence:** Track emerging trends in ESG regulations and sustainability within the healthtech and biotech sectors across Europe and Asia.
- **Brand Stewardship:** Help maintain a consistent brand voice across all digital platforms, ensuring that our "smart capital" approach is clearly articulated to the global community.
- **Internal Communications:** Contribute to building and optimizing internal communication systems to enhance alignment, knowledge sharing, and team engagement across a rapidly growing global and remote organization.
- **Event Mapping & Global Networking:** Support the identification, organization, and management of relevant industry events and conferences. Assist in coordinating our participation and creating networking opportunities that enhance visibility and strengthen our global sustainability and innovation footprint.

## Qualifications

- **Academic: Recent graduate or currently enrolled** in the final year of an **MBA** or a **Graduate Program** (Master's/PhD) in Communications, Marketing, Sustainability, Business Administration, or International Development.
- **ESG Expertise:** Proven experience or specialized coursework in **Environmental, Social, and Governance (ESG)** frameworks within a business or financial context.
- **Analytical Toolkit:** Strong analytical skills with the ability to interpret complex datasets and summarize strategic recommendations with a "crisp" summary.
- **Communication Excellence:** Exceptional writing and presentation skills; ability to articulate technical and strategic findings to both technical and non-technical stakeholders.
- **Industry Interest:** A deep interest in life sciences, healthcare, and venture capital, coupled with a desire to drive social impact through innovation.

- **Global Mindset:** Ability to work independently and collaborate effectively as part of a global team across different time zones.
- **Ecosystem Awareness:** A solid understanding of the startup ecosystem and the importance of sustainability in scaling international ventures.
